

Parte II – Trabalho Prático

Nesta Unidade 8, deverão ser entregues como documento de requisitos do software a ser desenvolvido os seguintes itens:

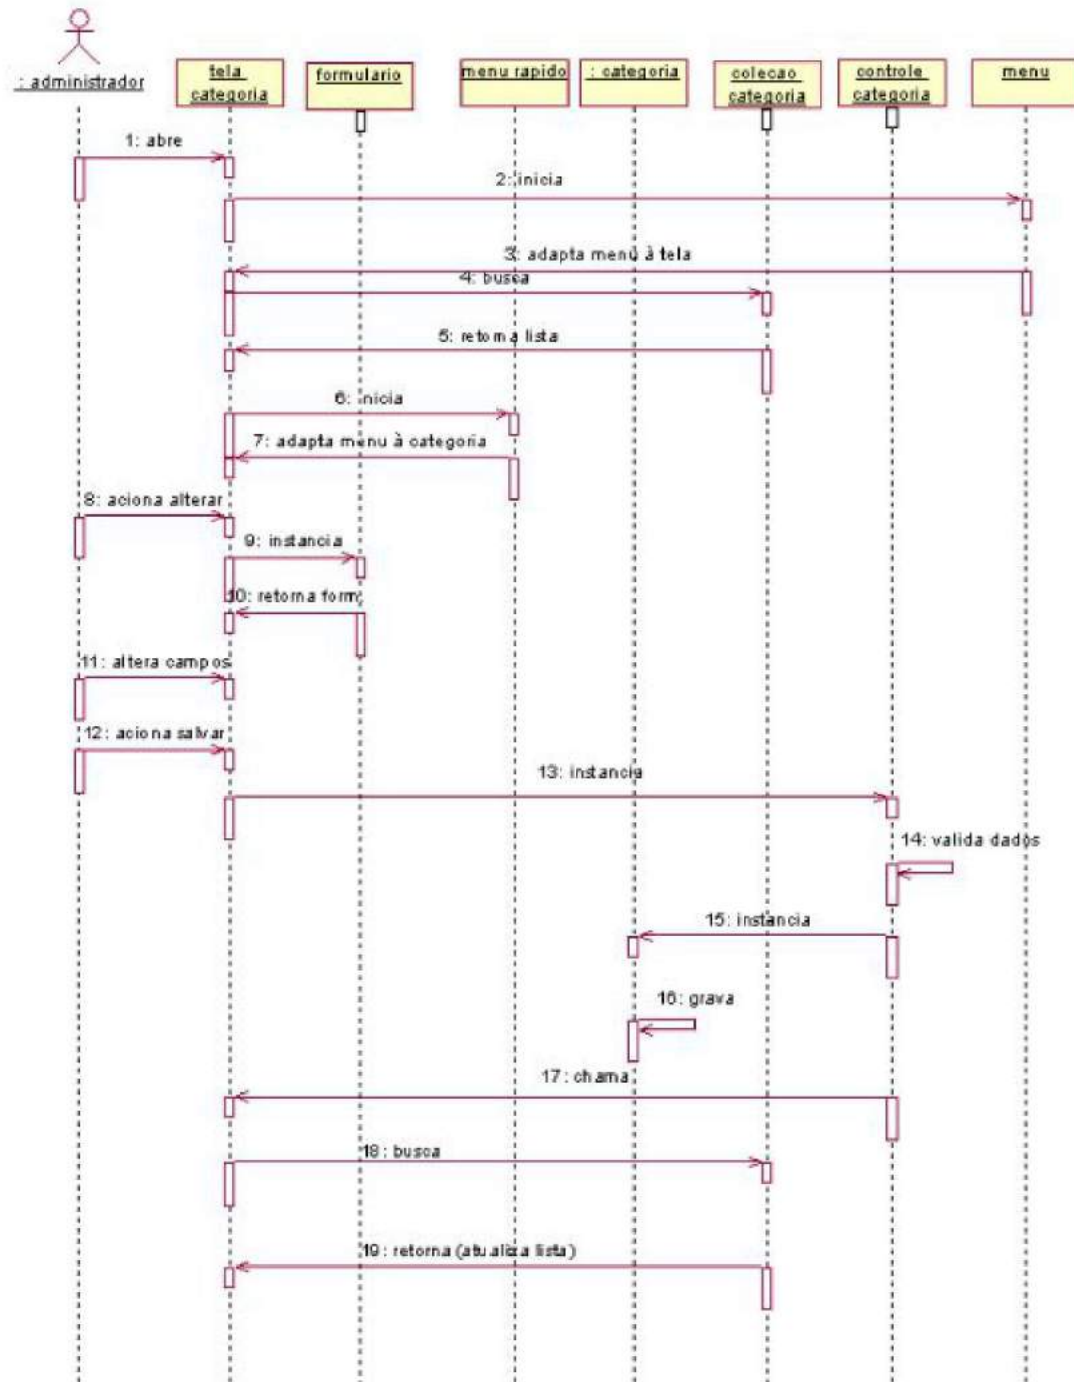

- **Diagramas de Sequência** do sistema, **1 para cada caso de uso**, exceto os casos de uso do tipo CRUD
- Para casos de uso CRUD basta representar apenas 1 CRUD contendo 3 diagramas: 1 para *Create*, 1 para *Read e Update*, 1 para *Delete*.
- Cada diagrama de sequencia deve conter pelo menos: a visão dos usuários (atores), classes de interface (camada visão) e classes de entidade (camada modelo).

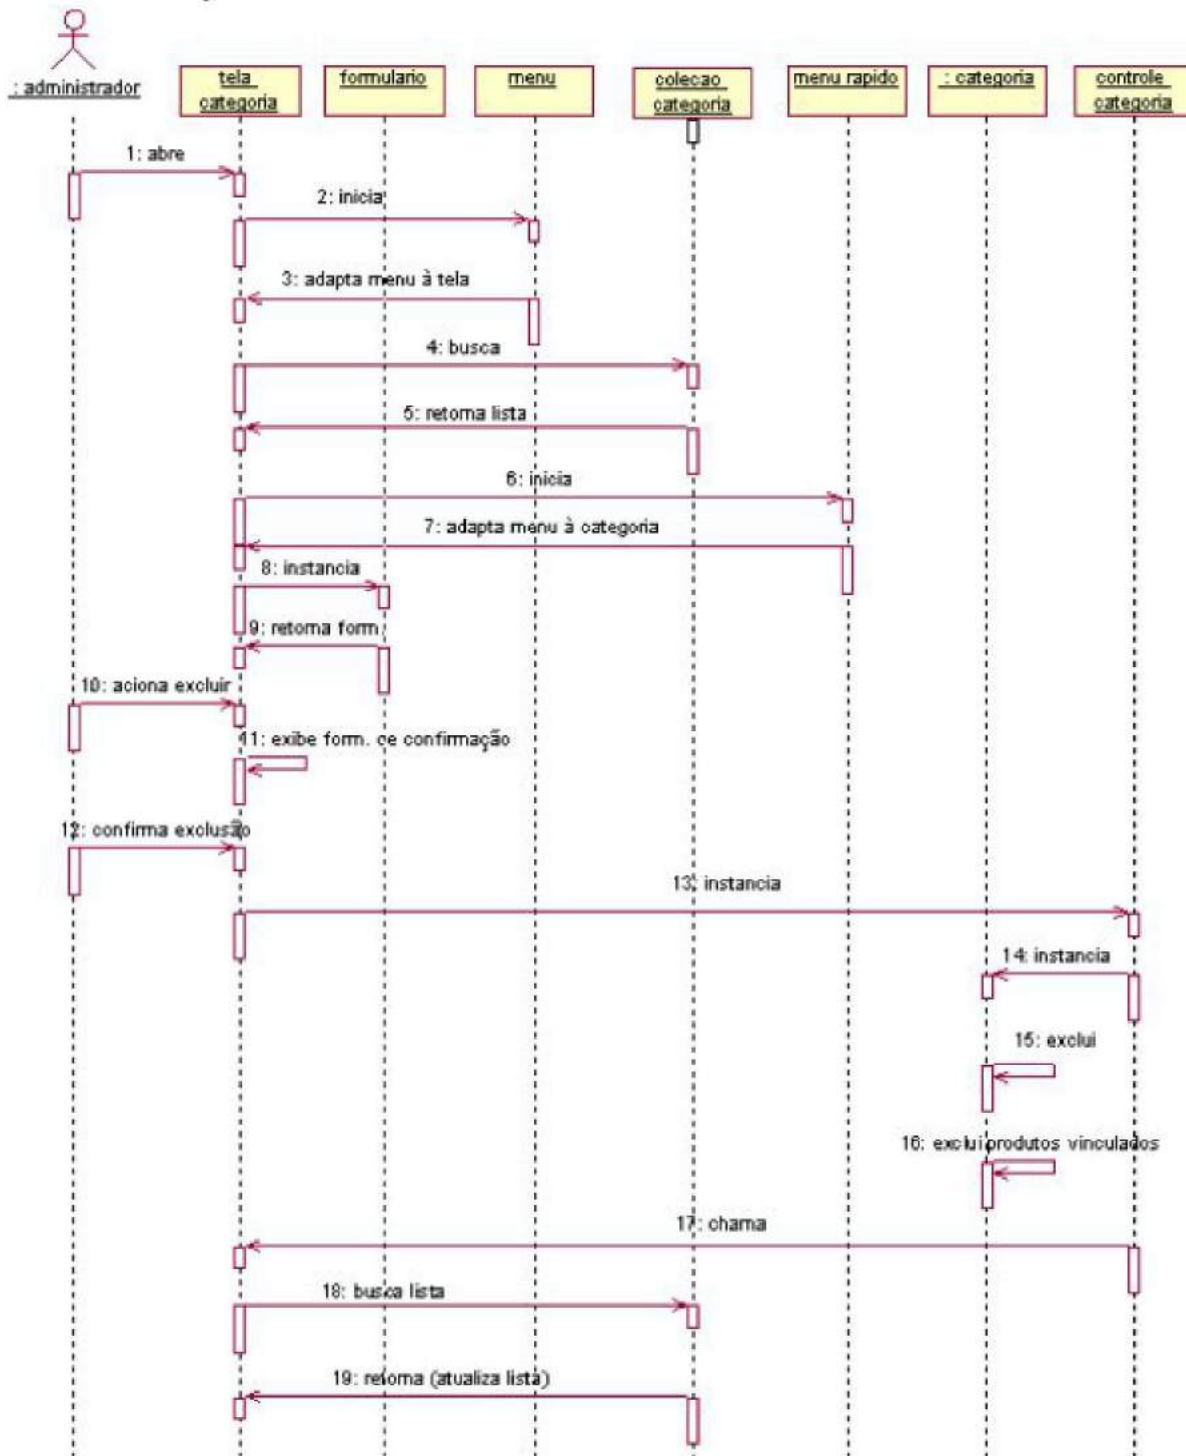

Resposta:

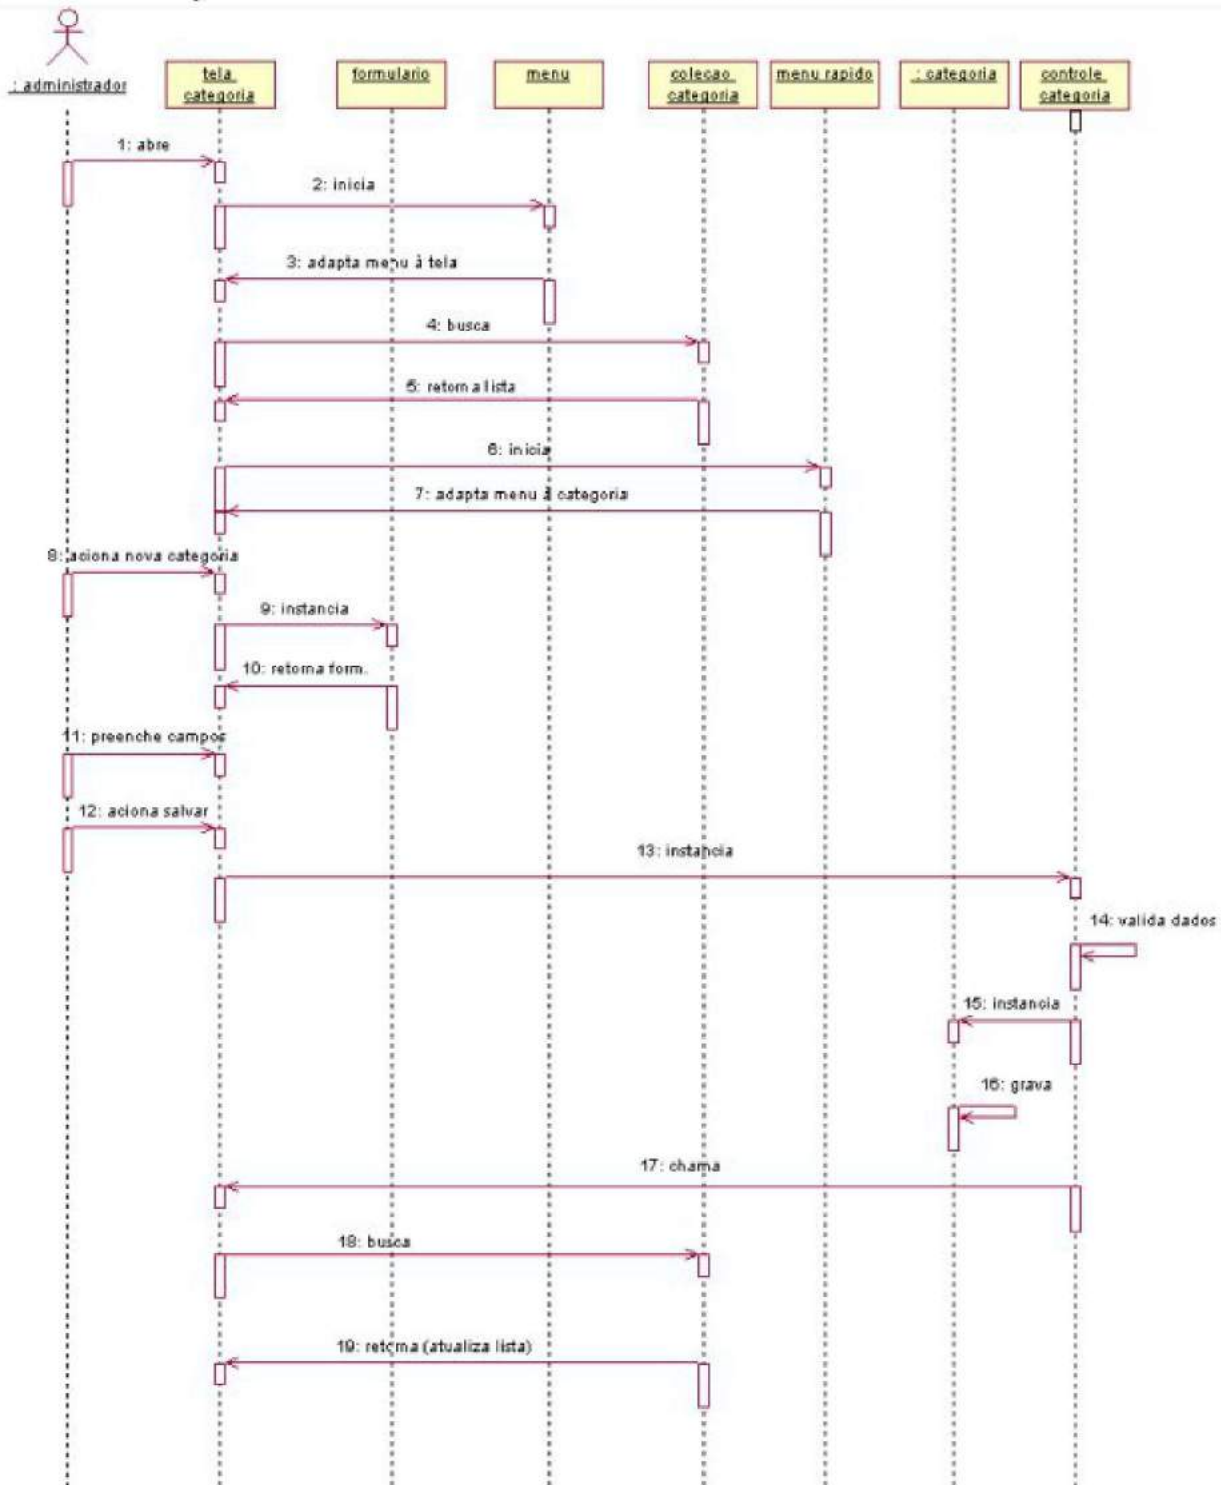

Pasta application: É onde se encontra as subpastas como clientes, funcionários, fornecedores, etc. que armazenam as respectivas páginas para a criação do CRUD(Create, Read, Update e Delete – Criação, Leitura, Atualização e Exclusão) e movimentações do sistema.
